LEAD ROLE : ISABEL ARC

I am an actor who improvises. As an improviser I happily make things up. I improvised a monologue for my audition and was offered the lead within 2 hours before the rest of the cast was set. Never had a stage role before. 72 pages of dialogue with multiple long monologues, and never off the stage. An accomplishment!

- One is never ever too old to memorize a lot if you just stop resisting and breathe
- Friends supporting friends works
